LET THE ADVENTURE BEGIN

Welcome Friends!

To our 7th Annual Evening for Bacon Street Gala, Around the World in One Night!

We are humbled and grateful to have you join us tonight as we celebrate over 5 decades of service to our community, and the move of our Hampton office to Newport News. As we travel Around the World in One Night tonight, I hope you all know how deeply impacting your support is. Our work couldn't transform lives and create healthier families without you.

In our long history, Bacon Street Youth and Family Services has seen many years where the need for our services has risen substantially, but none like that of the last 3. In that time, we have seen more teens and families on the brink of crisis, rapid growth in our prevention programs, and greater need to help fill in the gaps of basic needs for our families. Thanks to you, we have been able to continue meeting the needs of our community in the ways they need us to. Each of you in this room are not only supporters of youth mental health wellbeing and recovery, you are advocates for transformation, second chances, and happiness.

Since 2020, amidst the pandemic, economic crises, political changes and controversy, and financial uncertainty, we have continued to remain steadfast in our mission to provide a safe, judgment-free space for youth, young adults, and their families facing substance use or mental health challenges. It hasn't always been easy, but it is always worth every challenge to ensure the health and safety of every family that turns to us for help.

Although our mission isn't a simple one, our work to create healthier families and more resilient youth is critical to the health of our community. Together, we can support those that need us most, whether they can afford services or not. The equity in our services is possible because of each of you in this room. Our greatest hope is that you fully understand the impact you have made by joining us tonight, and that you continue to support the mental health wellbeing of our community each and every day.

Thank you for taking action with us as we create a better tomorrow together. Because of you, the preteens, teens, young adults, and families we have the privilege to serve are positively affected for the rest of their lives. The work you are making possible supports healthier choices, relationships, habits, and overall better health for years to come. Enjoy this evening knowing that you are creating an impact that lasts a lifetime.

With much gratitude,

Kim Dellinger, Executive Director

We look at our banking solutions as people solutions, and that changes how and why we do what we do as a financial institution. It's not just about being able to offer our customers the best financial products and services for their individual needs, it's so much more than that. It's about people helping people, and that has been our mindset for over 120 years. We started as a local community bank in the Northern Neck with the goal to help our neighbors and communities achieve their dreams. Now, 120 years later, that desire remains the same.

Michaiah shares her thoughts

"As the year comes to an end I wanted to say thank you so much for this program. It has allowed me to meet great people that I consider long term friends, but it also helped me grow as a person in terms of not being in a shell so much. I used to close myself off and stay in my room all day long, but with Bridges I had a reason to go out. I wanted to go out because I knew I would have a good time. I know I haven't been around to some of the outings or meeting like I used to. I apologize. Recently I've lost a part of myself that I'm still trying to find and let myself crawl back into a place I don't want to be.

I am forever grateful for you and this program, and wanted to let you know that this program is a success and you guys created a great thing!!"

Thank you all for your dedication to not only our mission, but to our community. Without each and ever one of you standing beside us, our work would not be possible. You have made tonight a success, and we are forever grateful.

Senior Clinician, Ashinna Cole, LPC, shares her passion for poetry

"I once heard a young woman share during a session that her mother was her very first bully. First person to challenge her sense of self-worth and diminish her self esteem fully.

These unsung narratives from around the world have to be told. We carry the pain stained banners for social and emotional deficits, mental illness, injustice, mistreatment, lack of support, miseducation, dysfunction, toxicity, pain, and an insurmountable magnitude of heaviness that continues to spill over into our communities across generations.

Our response to that is light.

Our response to that, is extending a hand in partnership to forge healing relationships with those willing to begin or continue the journey."
